**ALLERTON HOUSE AT CENTRAL PARK IN WEYMOUTH**

Joan, Melanie, Jessica, Kristen, and Helena are the heart of this community. I watch these women care for our senior residents with compassion, patience, knowledge, and kindness. These unsung heroes are dedicated to providing exemplary care. They are responsible for residents 24 hours a day, seven days a week. On any given day, they might become case managers, nursing assistants, educators, maintenance workers, cooks, housekeepers, and social workers.

My mother, mother-in-law, and sister-in-law have all resided in this community. They received wonderful care. The nursing staff was also tremendous with our family. They provide the same level of care to all of the residents and families because that is who they are. You can't teach compassion and dedication. My family will always be grateful for the love, kindness, and expertise that they received. Seeing all of the residents receive the same care is heartwarming. You have my admiration and respect for the dedicated work that you all unselfishly perform.
